### PLAN SUCCESSION OF CROPS

Not Advisable to Have Second Planting of Same Crop Follow the First—Keep Land Busy.

In planning the location of crops, consideration should be given to the matter of succession, in order that the land may be occupied as large a part of the time as possible. It is not advisable to have a second planting of the same crop or a closely related crop follow the first. Cabbage should not follow cauliflower, Brussels sprouts, mustard, or kale, for many of the same diseases and insects affect all of these crops. Tomatoes, Egg-plants and peppers should not follow each other. In some sections three or four crops can be grown on the same land each year, while in other sections two crops are all that can be grown to advantage. When a crop is harvested early in the season and it is not practicable to plant another vegetable for two or three months, the land may be planted to cowpeas or crimson clover. For example, after a crop of early cabbage it may not be desirable to plant another vegetable crop until late summer or autumn. In this case it would be desirable to sow cowpeas or crimson clover, to be turned under in preparation for the fall crop.

#### Deficient Calf Ration.

Many of the calves in the West are fed a ration consisting of corn stover, prairie hay and sometimes some corn as a grain ration. Such a ration is deficient in protein, and the animals will not do well on it. But if good clover hay is substituted for some of the roughage in this ration, the animals will make good gains at a less cost.

#### Unconquerable.

The habit of never being whipped, of always keeping up the fight—that is the quality of the great leader. The man who never admits defeat is the man the world has to take into account. Time and again the foe he is fighting may think they have him down. But before they know it he is on his feet sounding the advance. Such a man molds events. He helps create the new heavens and the new earth of the prophet's vision. A mighty force of the universe is the unconquerable soul!

#### Perfection of Manners.

To be always thinking about your manners is not the way to make them good; the very perfection of manners is not to think about yourself—Whately.

### Home Treatment For Tuberculosis In Summer

BUILD a floor on a dry bit of ground. It is best to have it raised a few inches above the ground. Erect a tent over it, get a reclining chair and some simple furniture, and you are ready for a cheerful life at home while you fight that dread enemy, the Great White Plague.

### HOARD SUPPLIES OF COPPER

Germany Making Use of Other Materials—British Ate Kippers After Mud Was Scraped Off.

A Belgian officer, during a brief holiday from the trenches on the Yser, told a London Daily Express representative that the buttons on the coats of all the German soldiers recently captured by the Belgians are made of bone instead of copper, while the time fuses of German shells are now exclusively made of aluminum.

Private George Gallon, who is serving in the trenches at La Bassée, writing to his sister in Leeds, says: "We had four kippers for breakfast in the trench, and the Germans started to shell us while they were cooking. One shell hit the front of the trench and filled the frying pan full of dirt. So we had to scrape the kippers before eating them, but they were quite all right."

An Austrian officer taken prisoner by the Serbians was highly indignant because he was carried to prison in an oxcart—the usual mode of conveyance in Serbia. He declared: "When you have the honor of taking an Austrian officer prisoner you should at once escort him to headquarters in a motor car." The Serbian replied: "We have that honor many times, but we haven't so many motor cars."
